RESEARCH INTERESTS

Artificial Intelligence (AI) · Wireless Networking (Wi-Fi MAC) · Extended Reality (XR)

Wi-Fi MAC & Latency – Reinforcement-learning-based contention window control for IEEE 802.11bn to reduce tail latency under dynamic QoS traffic.

Distributed Learning over Ad Hoc Networks – Communication-efficient federated learning (Baton-FL, Chain FL) for UAV and wireless ad hoc environments.

Immersive 3D Media – ROI-aware point cloud downsampling and 3D detection for efficient transmission of XR content.

EDUCATION

2025.03 – Present **Integrated M.S.–Ph.D. in Applied Artificial Intelligence**
Myongji University · DAN Lab.

2019.03 – 2025.02 **B.E. in Information and Communication Engineering (ICE) · Valedictorian**
Myongji University

RESEARCH EXPERIENCE

2025.03 – Present **Integrated M.S.–Ph.D. Student**
Myongji University · DAN Lab.

2024.05 – 2025.02 **Undergraduate Researcher**
Myongji University · DAN Lab.

ACTIVITIES

XR·AI United Society (XREAL)

2025.10 – 2026.02 **XREAL 9th OB** · Dev Team

2025.03 – 2025.08 **XREAL 8th Leader** · Dev Team Lead

2024.09 – 2025.02 **XREAL 7th Junior** · Dev Team

[D7] Chaeyun Lim, Sohyeon Jang, Hyunhee Park, "**Development of MR-based AI Companion Contents for Utilizing XR·AI technology in Daily life**," KICS Autumn Annual Conference 2024, Gyeongju, Korea, 2024. Undergraduate poster presentation.

KICS: Korean Institute of Communications and Information Sciences. Domestic conference papers are in Korean.

Patent

[P1] Chaeyun Lim, Hyunhee Park, "**Apparatus and Method for ROI-Based Adaptive Point Cloud Downsampling**," Korean Patent Application No. 10-2026-0085827, filed May 12, 2026 (pending). Myongji University Industry-Academic Cooperation Foundation.

RESEARCH PROJECTS

Funded projects at DAN Lab. Projects are led by the lab's principal investigator unless marked PI.

2026.10 – 2028.09 **Joint Energy-QoE Optimization for Video Delivery in Satellite-UAV-6G Networks via Stochastic Modeling and Generative AI**
Korea–France Cooperation Foundation Program (PHC STAR – Partenariat Hubert Curien) · Joint research with IRISA / Université de Rennes
Role: Main researcher

2026.09 – 2027.08 **Meta-Reinforcement Learning for Adaptive Channel Access Optimization in Self-Healing Multi-AP Networks**
National Research Foundation of Korea (NRF) · Graduate Research Fellowship Program
Role: Principal Investigator · sole awardee of a competitive national research fellowship PI

2025.04 – 2029.03 **Development of Hybrid Inspection Equipment Incorporating Deep-Learning-Based Optical Character Recognition (OCR) and Chipping Detection**
Korea Technology and Information Promotion Agency for SMEs (TIPA) · SME Technology Innovation Development Program (Export-Oriented) · Joint research institution
Role: Leading research and experiments

2025.04 – 2025.10 **Development of an Embedded-AI Virtual Keypad for Small Edge Devices**
Industry-commissioned research project · Innopiatech Co., Ltd.
Role: Main researcher for the year · research, development, experiments and final report

2024.08 – 2027.12 **Development of a Vision Recognition Technology SDK Based on Domestic AI Semiconductors**
Ministry of Trade, Industry and Energy (MOTIE) / KEIT · Materials & Components Technology Development Program (Heterogeneous Technology Convergence) · Joint research institution
Role: Leading research, experiments and report writing (since 2025.03)

2022.03 – 2027.02 **AI-MAC Protocol on Distributed Machine Learning for Intelligent Flying Base Stations**
National Research Foundation of Korea (NRF) · Basic Science Research Program (Mid-Career Researcher)
Role: Research and paper writing (since 2025.03)

AWARDS

2026.09 **Best Paper Award**, NBiS 2026 (The 29th International Conference on Network-Based Information Systems)

2026.07 **Excellence Award**, Gyeonggi RISE G7 (AI) Industry-Coupled PBL (IC-PBL+) Competition

2026.02 **Outstanding Paper Award (Haedong Award)**, Korean Institute of Communications and Information Sciences (KICS)

2025.09 **Outstanding Paper Award**, Korea Artificial Intelligence Conference (KAIC 2025)

2025.02 **Valedictorian** (Top of Graduating Class), Dept. of Information and Communication Engineering, Myongji University

2024.10 **Encouragement Award**, XR Developer Challenge (Metaverse Developer Competition)

SCHOLARSHIPS

2026.06 **Merit Scholarship for Master's Students in Science & Engineering**, Korea Student Aid Foundation (KOSAF)

2023.06 **National Science & Technology Scholarship**, Korea Student Aid Foundation (KOSAF)

CERTIFICATIONS

2024.06 **Engineer Information Processing** (Korean National Certification)

2024.03 **Pilot of an Ultra Light Vehicle** (Unmanned Multicopter, 1st)
